

# Adjective Ordering

Gregory Scontras, Judith Degen, and Noah D. Goodman

June 16, 2015

## Abstract

Here is the abstract

## 1 Introduction

Background on adjective ordering preferences

### 1.1 English

### 1.2 Cross-linguistic stability

## 2 Corpus work

## 3 Experiments

### 3.1 Faultless disagreement

### 3.2 Ordering preferences

## 4 Possible accounts

### 4.1 Memory

Forgetting account

### 4.2 Syntax

John Beavers spray/load work

### 4.3 UID

Different notions of informativity

#### 4.4 Flexibility

*Blue* is less subjective so I rarely speak of “blue for X”, whereas more subjective and flexible *good* is often spoken of in terms of “good for Y”.

### 5 General discussion
