Dear Dr. Goldwater,

We would like to thank you and the two anonymous reviewers for your positive reviews and comments on our paper, “Subjectivity predicts adjective ordering preferences.” In your final decision, you requested that we 1) incorporate more of the results from our SI into the main article, and 2) address the framing issues raised by Reviewer #2. We have done both, and we hope that you will like the new version of the paper. Please let us know if you require additional information or changes. We look forward to hearing from you!

Yours sincerely,

Gregory Scontras, Judith Degen, and Noah D. Goodman
